***Allowable Subject Matter***

1. Claims 1-15 allowed.

2. The following is an examiner's statement of reasons for allowance:

None of the cited references teaches or suggests a pointing device for computer that includes: a flexible member for allowing and controlling a relative movement of the magnetic field source and the magnetic field sensor, a first end of the flexible member being connected to the body and a second end of the flexible member capable of swinging freely, the flexible member and magnetic field source forming a critically damped system such that when a force is applied to an end of the flexible member the relative position of the magnetic field sensor with respect to the magnetic field source is changed in a direction of the force by a distance proportional to the force, as disclosed in claim 1. The closest art (Arita, Jackson and Garnjost et al.) disclose related pointing devices, either singularly or in combination fail to anticipate suggest these limitations obvious.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

The Baer (US Patent No. 4,540,176) reference discloses a first end of the flexible member being connected to the body and a second end of the flexible member capable of swinging freely, without magnetic field (Fig. 6).

Art Unit: 2673

The Cohen (US Patent No. 6,025,830) reference discloses a first end of the flexible member being connected to the body and a second end of the flexible member capable of swinging freely, without magnetic field (Fig. 5A).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
